

Automobile Electric and Electronics Laboratory

Lab Area: 55.74 Sq. m

1. BOSCH Make Auto Electrical Test bench
 - 415 Volts;3 phase 2.2 kw ,2800RPM for driving motor
 - 150amp & 12/24V starter can be tested
 - 14/120amp and 28/75amp alternator can be tested
2. BOSCH Make Sparkplug Tester
3. BOSCH Make Multifunction Unit
 - 13.5V &15.5V DC for regulator
 - 15V, 400Hz supply for testing multifunction regulator
 - 12V DC supply for testing GDU
4. ELGI Make Head lamp Aligner (On Order)
 - Column Height : 1413mm
 - Lense diameter: 200mm
 - Measuring range(Height) min:240mm & max:1280mm
5. Starter and Alternator of LUCAS and TVS(NEW)
6. Starter and Alternator (Reconditioned)
7. Cut section of Starter and Alternator
8. Distributor and Dynamo (Maruti Van)
9. Relays, Horns (Maruti Van)
